Projects

Quiz App

Interactive User Interface: Crafted an interactive quiz app using HTML, CSS, and JavaScript, featuring an appealing and user-friendly interface.

Topic-based Quiz: Developed a quiz app with three distinct topics, each comprising 10 questions. Users receive their scores upon completing the quiz, emphasizing a structured and topic-focused learning experience.

Responsive Experience: Ensured cross-device compatibility with a responsive design, offering a consistent and optimized experience on desktop and mobile platforms.

Shophaven

Shophaven E-commerce: Created "Shophaven," a visually appealing shopping website using HTML, CSS, and Bootstrap. The E-commerce website specializes in a curated selection of bags, handbags, watches, shoes, chappals, and belts.

Product Variety: Established a user-friendly shopping experience by categorizing products into distinct sections, allowing seamless navigation for customers interested in bags, handbags, watches, shoes, chappals, or belts.

Responsive Design: Ensured a visually pleasing and functional site across devices with Bootstrap's responsive design. The website adapts seamlessly to different screen sizes, providing a consistent and visually appealing experience for users shopping for fashion accessories.
